1. Introduction

1.1. By visiting <https://primexbt.com> or <https://primexbt.ch> or <https://primexbt.com.au> you ("Client") are accepting all the risks described in this Risk Disclosure Notice. Any reference to 'us', 'our', 'we' or 'PrimeXBT', 'Company' in this notice is a reference to each company within the PrimeXBT group of companies as the context requires unless otherwise stated.

PrimeXBT group of companies includes:

- **Prime XBT Trading Services LLC** with registered address First floor, First St. Vincent Bank Ltd Building, James street, Kingstown, St. Vincent and the Grenadines
- **Prime Technology Ltd** with registered address Global Gateway 8, Rue de la Perle, Providence, Mahe, Seychelles
- **Prime Digital Instruments LLC** with registered address First floor, First St. Vincent Bank Ltd Building, James street, Kingstown, St. Vincent and the Grenadines

1.2. You must read carefully this notice which is easily accessible on the Company's website before deciding to open a trading account with the Company and before commencing any trading activity with the Company. Under no circumstances, should you risk more than you are prepared to lose.

2. Nature of leveraged products

2.1. Our products are complex instruments and come with a high risk of losing money rapidly due to leverage. These products are not suitable for all investors. You should consider whether you understand how these products work and whether you can afford to take the high risk of losing your money. Seek independent advice if necessary.

2.2. Leveraged products are traded off-exchange (or Over-the-Counter ('OTC')); this means PrimeXBT is at all times the counterparty to the Client trades and any trades entered into with the Company, can only be closed with us. Your ability to open and/or close trades is dependent on the availability of our service.

2.3. You understand that you are not entitled to the physical delivery of the underlying instrument of the leveraged product you are trading and you have no rights in the underlying instrument (such as voting rights etc.).

3. Market risks

3.1. PrimeXBT enables you to use leverage to open a trade by depositing a fraction of the total trade value; this means that a relatively small market movement may lead to a proportionately much larger movement in the value of your trade.

3.2. Markets may fluctuate rapidly to reflect events that are outside the control of the Company and/or your control; as a result, prices will become volatile. This can be caused, for example by unexpected economic events or market announcements, within or outside trading hours. In addition, if prices move against you, this will have a direct and real-time impact on your trades, which may be automatically stopped-out.

3.3. Consequently, PrimeXBT may be unable to execute your instructions at the requested price. Therefore, even 'stop-loss orders', whereby your trade will be executed only when the instrument you want to buy or sell reaches a particular price (the stop price), cannot guarantee the limit of loss. 'Stop-loss orders' are not guaranteed to be filled at the price you state. Once the 'stop-loss orders' has been triggered, it turns into a market order, which is filled at the best possible price. This price may be lower than the price specified by the 'stop-loss orders'.

3.4. Past performance, simulation or prediction does not constitute an indication of future results. You should note that the value of your investment can decrease (as well as increase) as the market price of the underlying asset may fluctuate downwards (or upwards).

3.5. Some of the instruments may not become immediately liquid as a result of reduced demand for the underlying instrument and Client may not be able to obtain the information on the value of these or the extent of the associated risks.

4. Margin and liquidation risks

4.1. The Client should be aware of the implications of leveraged products trading and in particular the specific margin requirements which are applied thereto. The Client is required to deposit funds in his trading account in order to open a margin position and the funds should reflect the specific margin required.

4.2. The Client shall learn about the margin requirements and fees for each individual instrument before he begins trading; such information is available at <https://primexbt.com/fees>. Margin requirements will depend on the underlying asset, level of leverage applied, and the value of position to be established.

4.3. The Company has no obligation to inform the Client about the critical margin utilization levels. It is Clients sole responsibility to maintain sufficient margin on your account at all times in order to avoid stop-out.

5. Cryptocurrency related risks

5.1. The market for cryptocurrency is still new and uncertain. No-one should have funds invested in cryptocurrency or speculate in cryptocurrency that she is not prepared to lose entirely. Whether the market for one or more cryptocurrency will move up or down, or whether a particular cryptocurrency will lose all or substantially all of its value, is unknown. This applies both to traders that are going long and to traders that are shorting the market. Participants should be cautious about holding cryptocurrency.

5.2. Markets for cryptocurrency have varying degrees of liquidity. Some are quite liquid while others may be thinner. Thin markets can amplify volatility. There is never a guarantee that there will be an active market for one to sell, buy, or trade cryptocurrency or products derived from or ancillary to them. Furthermore, any market for cryptocurrency may abruptly appear and vanish. Any cryptocurrency is subject to delisting without notice or consent.

5.3. You acknowledge that PrimeXBT is not responsible for any losses or damages of any kind arising either directly or indirectly from the sending of cryptocurrency to the wrong wallet address during the withdrawal of funds from their PrimeXBT account.

There is a risk that the cryptocurrency may unintentionally include weaknesses or bugs in the source code interfering with the use of or causing the loss of cryptocurrency.

5.4. Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies which could result in the theft or loss of cryptocurrency.

5.5. The legal status of certain cryptocurrency may be uncertain. This can mean that the legality of holding or trading them is not always clear. Whether and how one or more cryptocurrency constitute property, or assets, or rights of any kind may also seem unclear. Participants are responsible for knowing and understanding how cryptocurrency will be addressed, regulated, and taxed under applicable law. There is a risk that in some jurisdictions cryptocurrency might be considered to be a security, or that it might be considered to be a security in the future. PrimeXBT does not give warranties or guarantees that any cryptocurrency is not a security in all jurisdictions.

5.6. Client is bound to check if acquisition and disposal of cryptocurrency is legal in his jurisdiction, and should not use cryptocurrency should their use is illegal in the relevant jurisdiction.

9.1. You acknowledge that PrimeXBT may act as a Market Maker for certain leveraged products. You acknowledge that PrimeXBT, when acting as a Market Maker, may quote you bid and ask prices. Notwithstanding this, you accept that Company has no obligation to quote prices to you at any time in any given market, nor an obligation to quote prices with a specific maximum spread to you.

10. No investment advice

10.1. PrimeXBT does not provide investment, financial, legal, tax, regulatory or other advice relating to investments or trading.
